

RPA Express 2.3.1

Available from May 24, 2019.

Compatible with SPA 9.3 and higher.

RPA Express 2.3.1 is a maintenance release to fix the issues reported for the previous versions.

Bug Fixes

- Server components are not found on reopening RPA Express immediately after closing.
- WorkFusion Studio does not see Server components in in the Development Workstation and Server installation type.
- WorkFusionLogRotate task does not appear after update to RPA Express 2.3.0.
- Workspace does not work on PC without Internet.
